MR. TERRELL'S THREAT.

Vigorous Attitude of Our Minister at Constantinople

TO PROTECT LADY MISSIONARIES.

If They Are Harmed He Will Demand and Obtain the Governor's Mead-Details of the Recent Raids by Rurds Near Kharput - Matters Quieting Down.

Constantinople. Nov. 25.-No news was received from the interior on Faturday. except from Marsivan, where all was quiet, though apprehension was felt for the safety of the American missionaries at Micsecon, and the houses were carefully protected. To esoft in on Saturday sing a message to Minister Correll to the effect that no distributors had been reported from the Anatolia peninsula on Friday and Saturday. A report resulty beam on what the governor of Hallim had the atomat to barn the convent of the to an aud the burley fields surrounding Mudster Terrall ther agent informal the sublines porce that if any of three Ameri can lady miss, maries resident at Hadji. were injured in any way he would demand and obtain the governor's head. The lady

missionaries were safe ap to moon to lay. A batch of official dispatch is has been published representing that order has be in completely restored almost everywhere. except at Sivas, owing to the measures which the government has adopted.

It is officially announced that several of the notables and persons in authority at Erzeroum have apologized to Shakir Pasha for the disorders provoked at that town by

Armenian revolutionists. The Christian bishops at Ourfa have telegraphed the grant vizier that their

safety is now assured. The sultan has ordered that the corn collected in the form of tithes shall be distributed among the needy inhabitants of

Sivan and Kharput. The opinion prevails in diplomatic circles that a European conference is indispensable for the settlement of the Turkish question, for, although the powers have agreed, this agreement cannot be changed into action for fear of drawing Europe into a dangerous eastern situation. The winter snows will keep the Asiatic provinces quiet, but something must be done

before spring time revives the excitement and Macedonia is brought into the move-Consuls estimate the loss to property as a result of the Diarbekir riots alone at

General alarm still continues here, despite reassuring reports from the provinces, and the wealthy Armenians sleep at the hotels in preference to remaining at their

own houses. The kernel of the present situation is found in the fact that the government is without money. The sultan is anxious to stop disorders, but lacks funds with which to pay the troops.

THE MURDEROUS KURDS. Declared They Were Authorized by the

Sultan to Kill Christians.

London, Nov. 25.-The Daily News this morning publishes a letter from a European residing at Kharput dated Nov. 4. This correspondent describes the whole city of Kharput as being in a state of terror, the result of the recent upheaval. He says:

"For over a week the Kurds have been attacking the villages in this vicinity, and they have looted six on this side of the river. Refugees are constantly arriving in this city, and some of our friends from Oertek, in describing the looting, said that the Kurds even came with their women and children for the purpose of carrying

of the plunder. The Turks from the villages around joined them. In consequence of the racial troubles in the vicinity of Oertek three Christians were killed in one house and two petished in another. One woman who was enciente was ripped open. We daily appealed to the authorities, but nothing was done. The Kurds meantime threatened to plunder Kharput,
Agin, not of the old successful appealed

to and asked to defend the city, said: "Why should we protect the glaours? Let them be killed!"

"The government was formerly very prompt and efficient, but now the officials seem slack. It was known that the acting governor had wired Constantinople for instructions, but he was unable to get any reply. People said: 'This is the work of government ninleteers from Diarbekr. They told us how the Mussulmans had marched from the mosques declaring that they had the firman of the sultan in their possession, allowing them to kill the Christians. They proceeded with the killing,

The letter describes the burning of Argame and Maden, and continues:

"Everywher, without exception, the Kneds claim that they have the authority of the government for everything they do. I think the worst is over. The Kurds have been driven across the river, in obedience to the receipt of a telegram from the authorities at Constanti nople requesting the local officials to preserve order. If this had been done at first all the disorders could have been avoided. The terror and distress are terrible, and the winter prospect is appalling. Where the Kurds alone were con cerned the loss of life was not great, they evidently contenting themselves with the plunder.

Mother and Son Blind.

WILKESBARRE, Pa., Nov. 25.-A strange affletion has fallen upon the family of Jacob Kline, a well-to-do dairyman of this city. Last Tuesday Katie, his 12-year-old daughter, came home from school suffering with very sore eyes. Her mother bathed the eyes in warm milk, and the towel which she used was thrown back on the rack, Some time after Mrs. Kline wiped her face with it, and John, the 10year-old son, did likewise. The little girl was better next day, but the mother's eyes began to pain her, and continued growing worse until Thursday, when she became blind. The eyes of the boy were also affeeted, and today is blind in one and the other is weakening. The mother cannot recover her sight, and the boy may be per-

RAILROAD STATISTICS.

Earnings and Expenses as Compared with the Two Previous Years.

WASHINGTON, Nov. 25 .- The interstate commerce commission has just issued a preliminary report on the income and expenditures of railways in the United States for the year ending June 30, 1895. The report includes the returns from 650 roads whose reports were filed on or before Nov. 9, 1895, and covers the operations of 164,529 miles of line, or 92 per cent. of the total mileage in the United States. The gross earnings were \$1,003,022,853, of which \$293, 405.702 were from passenger service, \$683, 022,933 from freight service, and \$26,217, 505 were earnings from operations cover ing earnin is from telegraph, ear mileage balances, switching charges, etc. The operating expenses were \$677.637.635, leaving net earnings of \$325,355,216, as compared with not earnings of \$320,137,670 for the same roads in 1891.

A BOGUS INTERVIEW PUBLISHED.

He Refused to be Interviewed on Murderer Holmes' Book, and Yet His Private Talk Was Printed, Against His Earnest Protest-"A Shameful Breach of Faith."

OTTAWA. Ont., Nov. 25.— Hall Caine, the noted English anthor, is greatly annoyed at the publication of an alleged interview with him which appeared in an American paper yesterday, giving what purports to be his impression of Holmes, the Philadelphia murderer. Mr. Caine disclaims every passage and every line of the interview.

Speaking to a reporter last night he said: "No 1/ng in all my experience of journal-Ism has seemed to me so ignobbe and so mendacious. I have been so well treated by American journalists during my stay in the United States and Catalda that could not have believed that any jewenal would have treat of me in this way. What

HALL CAINE. are the facts? On Monday last two genflemen called on me at the Everett House. New York, with a rough sketch of a book said to have been written by Holmes, and asked me in the name of the editor of a well known paper to read and speak of it. I declined. They were importunate. I stuck to my refusal, but I allowed them to

leave the book, and I read a portion of it.

'One of the men called again. I said I could not write of the book or allow myself to be interviewed about it. He offered me \$250 to say anything about it to a stenographer. I said I would not touch the subject for \$2.50

This morning I received a typewritten copy of this alleged interview with me, accompanied by a letter from the editor, saying he had instructed the reporter to write an account of what I had said in my private conversation, hoping I would allow the account to be made public, and asking for a reply by wire indicating any passage I objected to It was, however, too lare to telegraph, as the paper was already published.

"All I can now do is to offer my indignant protest. The interview is unauthorized. In part it is utterly false; in part it contains what I said as between man and man. On my return to New York I shall lose no time in seeing how far an action at law will lie against parties to so shameful a breach of faith."

Identifying a Pootpad.

NEW YORK, Nov. 25.-Baymond Elroy, the young man who was arrested by the police of the Delancey street station on the afternoon of Nov. S. on suspicion of having been connected with the murder of Richard Pope, the bartender in Walter Brothers salson, on the Southern bonlevard at the time masked robbers looted the place on the previous night, was positively identified on Saturday as one of the masked men who robbed Nicholas T. Gutchins, of Bultimore, on the night of Oct 2 last, at the point of a pistol. Elroy was again arrested in company with one James N. Morse, who has also been identified as one of the Baltimore robbers. The police have likewise connected. Morse, indirectly with the shooting of Albert Shonbein at the robbery of Michael O'Neill's saloon, at Ferry and Jefferson streets. Hoboken, on the night of Oct 23 last.

BRUTAL DRUNKARD'S SUICIDE After Murderously Assaulting His Fifteen-Year-Old Stepdaughter.

NEW YORK, Nov. 25.-Andrew Tinko, a Hungarian, while intoxicated attempted to murder his 15-year-old stepdaughter and then committed suicide. The man, his common law wife and her daughter by a former marriage lived together in a tenement house in Third street. Early yesterday morning the man attempted to as-

sault the girl, and meeting with resistance he was crazed with anger. He selzed a knife and thrust it into the girl's back several times. The girl sprang from the bed and ran into the kitchen, closely followed by the murderer. There the child, cowering in dread, was seized by the father, who picked up a hatchet which lay on the floor and began to strike the girl on the shoulders. The girl, though horribly cut and bruised, managed to break away from her father and escape from the house. Then the mother snatched the hatchet from his hand and followed her daughter into the street. They called the

police, who found Tinko stretched out on

the floor dead, having fired several shots

SLAUGHTER OF SEALS.

The Great Loss to Commerce by Indiscriminate Killing.

THE STARVING OF THE SEAL PUPS.

More Than Twenty-seven Thousand Lost Through the Eitling of Their Mothers. The Money Los- Will Reach Hundreds of Thousands of Dollars.

Washington, Nov. 25. - Information reaches here that the revenue cutter Bear, the last government vessel to leave Behring sea, has just brought down some start-Englevidence of the effect of pelagic sealing up on the Alaskan seal herd which frequents the Pribylof or seal islands.

In accordance with the findings of the Paris arbitration schooners are now permitted to hunt seals in Behring sea, with spears, in a zone sixty miles around the various islands, from the 1st of August. This gives them about five weeks of good sealing. It was thought that confining fishers to spears, and reducing the season to practically five or six weeks, would stop the slaughter in Behring sea, and allow the herd to recuperate. This year not less than sixty schooners began hunting in Behring sea Aug. I, and captured nearly 40,000 pelts, about 80 per cent. of which were from females. This does not show the full extent of the injury done. The seal pups are dependent on their mother's milk for the first four or five months of their existence, and without it must suffer

starvation. Acting under instructions of their respective superiors, both resident treasury officers and agents of the North American Commercial company made a careful count of the dead pubs found at the close of the season, when the scaling schooners had left the sea. The census was just completed when the Bear left, and reached 27,000, and does not include those in the last stages of starvation. The same conditions prevailed last year, but the count was made with less exactness, on account of snow. It is said that the actual pecunfary loss to the United States and the commercial world by this needless waste of animal life would reach hundreds of thousands of dollars.

The United States, which has never allowed the molestation of breeding grounds or killing of females on land, made an effort last year to stay the slaughter going on by limiting the land killing to 15.000

immature males. It is questionable if in the face of existing conditions and the reports of treasury officials further restraint will be exercised, especially as a request made last January by the United States to Great Britain for greater protection to the seals has been

practically ignored. It was the astempt made by the United States to stop the barbarity practiced on the seas by seizing the schooners that subjected the government to claims for damages on the part of Canada. These claims, which were rejected last year by congress. are again receiving attention from the state department, and the articles of a convention providing for a commission to sit at Victoria are being considered.

It is believed in congressional circles that unless a treaty, which must be ratified. by a two-thirds vote of the senate, confines the assessment of damages strictly to vessels passed upon by the Paris tribunal, and provides a penalty for perjury on the part of all witnesses called by either government, it will suffer the same fate as did Secretary Gresham's proposition to pay to Canada \$125,000 out of hand, despite the fact that a number of the schooners belonged to American subjects and nearly three-fourths of the claims are for prospective catches of seals.

Chandler's Presidential Prediction. CONCORD, N. H., Nov. 24.—The Concord Monitor, Senator Chandler's paper, editorially gives an opinion regarding the presidential situation, that the Republican convention will declare against a single gold standard; it will advocate bimetallism and demand coinage of both gold and silver as standard money, as soon as such coinage can possibly go forward in connection with maintaining the parity of the two metals throughout the commercial world. He says further that upon this platform Thomas B. Reed is likely to be nominated and elected by almost as big a

majority as Grant had over Greeley. Rearrested on a Murder Charge.

WILKESDARDS, Pa , Nov. 25.-On Friday last Anthony Jemnitz and Mrs. Annie Yeasley, who were under arrest on a charge of killing the latter's husband, were discharged from custody, the district attorney refusing to prosecute. Saturday they were rearrested. Yeasley was found dead in the Blackman mine several days ago, almost covered with coal and rock, and his face and hands blackened as if by fire. He was about to be buried when the undertaker found a bullet wound in the back. It is alleged that the accused comple were about to be married when arrested.

Postoffice Statistics.

WASHINGTON, Nov. 25 -Postmaster General Wilson has madehts first annual report to the president. The receipts of the postoffice department for the year ending June 30, 1805, were \$76,171,090, and the expenditures \$85,790,172. It is gratifying, says the report, that a large portion of the deflatency occurred in the first quarter of the year, and that the revenues are increasing with returning prosperity. Mr. Wilson estimates the revolute for the year endown James D. 1803, at 580,793,100, and the

Interesting Career of Bill Tunkey, the Record Breaking Engineer. It has been said by those who profess

fast trains; that their long experience and their knowledge of the dangers that surlound them ruin their nerve, and that young men are the only engineers who can keep the big eugines thundering along on schedule time. This statement may be true

BILL TUNKEY. in the general run of cases, but Engineer Bill Tunkey, who recently made the record breaking run on the Lake Shore from Erie to Buffalo, has been at the throttle for over 30 years, and is a gray haired veteran of the rail. The Lake Shore train ran from Chicago to Buffalo at the average rate of 65 07 miles an hour, excluding time for stops, and made the fastest run for the distance ever known in the history of rankonding. At Buffalo the train connected with the world famous Empne State express of the New York Central, and for the first time on record Chicago newspapers reached New York the same day they were printed.

Every precaution was taken to avoid accidents and to make the record breaking run of the special train a perfect success. Superintendent Tracey W. Niles, who has charge of the Lake Shore division between Chicago and Buffalo, had 500 section men on guard along the line of the road, and the wonderful trip was made without accident. The entire distance covered was 510 1 miles, divided into five sections, and the train was drawn by five different engines, manned by five engineers—Mark Floyd, David Luce, James Lathrop, Jacob Carner and William Tunkey. Tunkey's run from Erie to Buffalo was \$6 miles, which he negotiated at the average speed of nearly 71 miles per hour, the best time made by may of the five men at the throttle The train consisted of an engine and three cars, and weighed 488,500 pounds.

"I had no schedule." said Tunkey to a reporter, "but I knew what time I must make to beat the record, and I did it. We were moving at the rate of 30 miles an hour inside of the first 30 rods. Near Algona I had only ten inches of water, and felt a little scared, but I was all ready to dump the fire in the ash box and run in on the steam I had stored When we rolled into Buffalo, I was clean out, and couldn't have crawled another mile at ten miles an hour" During the World's fair Tunkey handled the famous exposition flier.

OCTAVE THANET'S NEW MISSION.

To the Rescue of Miss Flagler, Who Killed a Negro Boy.

Octave Thanet's mission heretofore has been to write very readable short stories and novels of western life, but at present she has a new mission. She has left her home in Davenport, Ia., and has gone to Washington to console and comfort her friend, Miss Flagler, who accidentally shot and killed a young negro boy not long ago and has been indicted by the grand jury for the offense. Miss Flagler fired a pistol to frighten away a gang of roughs who were despoiling her garden, and the bullet struck the young negro who was outside the fence watching the roughs and in no way taking part in the disturbance. The coroner's jury acquitted Miss Flagler, but the grand jury took a different view of her deadly act.

Octave Thanet's real name is Miss Alice French. She was born in Andover, Mass, in 1856, and admits that her mother's ancestors came over in the Mayflower. When she was but 5 years

old, her father removed to Davenport, la, which has since been her home, but she was educated at the same seminary in Andover that her grandmother attended many years before the birth of the novelist. She is a large, wholesome looking woman, with a fair complexion, brown hair and bright, intelligent blue eyes, which sparkle with good nature and bumer.

She was strongly drawn to literary pursuits as a girl, and her first notable published story appeared in The Atlantic Monthly in January, 1884. The tale was entitled "The Bishop's Vaga bond," and was such a strong effort that people began to wonder who Octave Thanct was and to predict that a new literary light had appeared. In March the same year The Century Magazine published another story, "Mis. Finlay's Elizabethan Chair." Since then a great many storics and novels have come from the pen of the gufted Iowa writer, and she is now regarded as one of the strongest short story writers in America. She has a passion for old furniture and rate china, and has also made quite a valuable collection of pictures by modern French and Italian masters,

BLOOD GIVES STRENGTH-

Kidneys Fifter the Blood and Take out Polsonous Matter Which Weakens the System-Blood and Kid ney Troubles Related.-How They May Be Got Rid of,

Blood is the strength of the body. It makes flesh and muscle. It gets nourishment from the stomach and bowels, and distributes it where

It drains away all the worn out matter. Every movement we make, wears

out some of our tissue or flesh. This worn matter is carried away by the blood.

The blood which contains it is poisonous. So it goes to the kidneys to be purl-

fied. The kidneys are simply blocd fil-

They filter out the bad matter from the blood and expelit from the body. They leave the good mat

ter in. The purified blood goes on and builds up the body.

But there comes a time when the kidneys don't do their duty. Water filters need cleaning now

and then. So do blood filters. When your kidneys are overwork ed they fall sick. When they are sick, they can't filter your blood.

When your blood is not pure, there is no knowing what disease you may tuffar from.

Unfiltered blood makes Sores, Pimples, Blotches, causes Headache, D zziness, Neuraigia, Loss of Ambition. Tiredness in the Bones and Muscles, Pains in the Joints and Muscles, Pale Sickly Complexion, Depression of Spirits, and such well known diseases as Rheumatism. Gout, Anaemia. Chlorais or Green Sickness, Hysteria, etc.

To cure them, all you have to co is to filter your blood. The kidneys will do it if you will

cure them. You can cure them with Dr. Hobb's

Sparagus Kidney Fills. Dr. Hobb's Sparagus Kidney Pills will also cure such kidney troubles

as Bright's Disease, Diabetes, Ne phritie, etc. These kidney troubles are also

caused by impure blood. First the kidneys refuse to work.

then the impure blood poisons the system, and with it the kidneys tnemselves.

Many people make the mistake of supposing the stomach can purify the blood.

Only the kidneys can do it.

That is what they are there for. So that ordinary "blood purifiers' are a mistake. A kidney medicine is what should

be taken. And then, only a kidney medicine that has the proper action on the

kidneys, such as Dr. Hobb's Sparagus Kidney Pills. Asparague is the only plant which has just the right medicipal action

on the kidneys, to cure them when overworked and tone them up, so that they commence again to purify the blood.

Asparagus cures the sick kidneys and acts naturally as a gentle tonic and regulator. It is the principal ingredient,

made by a special process, in Dr. Hobb's Sparagus Kidney Pills. Dr. Hobb's Sparagus Kidney Pills

is the only remedy which contains this especially prepared Asparagus. Dr. Hobb's Sparagus Kidney Pills will cure when other prescriptions

and medicine will not even relieve. They are for sale at all druggists for 50 cents a box, or will be sent prepaid to any address on receipt of

Say, why don't you try DeWitt's Little Early Risers? These little of 62,000. The city stretches from Red pills cure headache, indigestion and Mountain to North Birmingham and constipation. They're small, but to from West End to East Lake, and still the work. W. D. Olooy,

OLD SOUTH AND NEW

SHARP CONTRASTS OBSERVED BY A NORTHERNER IN ALABAMA.

The Poor White Cuts a Sorry Figure Alongside the Alert and Progressive Citizens Who Are Making Birmingham the Manchester of America.

There is a paradox in the social makeup of northern Alabama which is at once puzzling and amusing. There are many paradoxes indeed, but this one is remarkable. In the midst of wornout old cotton fields, red hills and forests has suddenly sprung up a line of lively modern cities, and in and around them is a unique civilization of a very high order, as different from the old north as from the old south. Yet all this newness, all this stir of industrial life and pleasant refinement have not produced the slightest effect upon the old residents of the hills, and from a city with 60,000 inhabitants, electric lights and railways, magnificent hotels and palatial residences, streets like Broadway and churches and school buildings equal to those of Boston, one may pass in an hour's walk to a district unchanged since 1860 except by natural decay, where lean and lanky men, and leaner yellow and shriveled women, sit in 'shacks'' unfit for blooded cattle, in the midst of dirt, dogs and towheaded children, chew natural leaf tobacco and spit through the cracks. Instead of being improved, old citizens declare that these people have retrograded because the few among them who had any talent and ambition have been drawn away to the new cities.

Just in front of the hotel where I am writing is a type of this class. He has a little bull of scrub stock, clad in a harness composed of rope, leather and old clothes, in shufts made of saplings attached to a cart that would be a show in any northern city, and in that cart is his family, all listless, dull eyed and seemingly half asleep. Up our way we smile at the country bumpkin who gazes in open mouthed wonder at the sights of the town and is curious about things long familiar to us, but these people do not stare or wonder or inquire. On this

limits. So the custom is to count all industries as Birmingham's which are in the district-meaning in the limits of the peculiar oval valley, which was made by the splitting of an anticlinal

In this district are 25 iron furnaces, five rolling mills, many foundries and miner shops, two cotton gin manufactories and a great variety of minor establishments. "And all this is but a beginning," say all with whom I talk, "for the great problem is solved. Carnegies have shown that our low silicon ore is readily convertible into steel by the Basic process, and as fast as possible all the furnaces will be changed so as to produce the kind needed. Carnegies have just bought 25,000 tons, and the Illinois Steel company 10,000 tons of it, but only two furnaces at present can turn out this low silicon ore. When all do so and many more are built-well, the most riotous imagination can scarcely picture the future of Birmingham. There's 500,000,000,000 tons of red hematite ore in that one mountain and plenty more all around, and we can turn it into iron at less cost than anywhere else in the world." And much more of the same sorr. But I wanted to know what the labor-

ing men were getting out of all this, as they told some very hard stories while the great strike and labor war was on. First be it noted that there are 2,000 convict miners in this county, and the gentleman in charge allowed me to range the vast prison where those temporarily idle are confined. Of the 400 or so there at least three-fourths are colored, and so I am told it is in the stockade. A good deal of liberty is allowed, and in the courtyard white and black, male and female, enjoy a social equality which would have delighted Theodore Tilton. Incidentally I may add that I interviewed Mrs. Howe, a white woman, whose case is interesting all Alabama, as she is awaiting final trial on the charge of murdering her stepson. She complacently called my attention to the fact that she did not "look like a murderess," but I have not seen specimens enough to be an expert.

There are 6,000 free miners in the county and about 2,000 more in the district, and the average of the pay roll magnificent street and in front of a pre- 1 for the largest mine is \$1.85 per day.

SCENE ON SECOND AVENUE, BIRMINGHAM.

that intelligent curicsity which is the germ and motor of progress as so many Gosha Utes. Their first sight of the railway trains does not rouse even a quiver in their faces. Men who work in the great rolling mills tell me that when one of these fellows delivers any backwoods product there he never manifests the slightest interest in the ponderous machinery or cares to look through the place. They haven't even ambition enough to get drunk, and if, as rarely happens, one gets too much whisky, he does not shout or fight, but drops on the first convenient spot and goes to sleep.

How did this class originate? There is a tradition in the south that they are descendants of those tramps and low grade criminals who were transported from England in early colonial times, but I apprehend that the stock must have been recruited considerably by the drift from other classes. They rarely commit crime of any kind and are radi-cally distinct from the "moonshine" distillers and fighters of whom we have read so much. Clay eaters are still found among them, and I have had a few pointed out to me, but the tendency of that class is to die out. The clay most affected is a peculiar waxy kind without a particle of grit, and some physicians maintain that the habit results from a sort of low grade scrofula which affects the stomach lining. This cheesy clay relieves the irritation, and hence the craving for it. The negroes, among whom the habit is very rare, say it is nothing but shiftlessness. "Day doan' do nothin, sah, an so day wants to be pickin at somefin, an day ain't gut vittels to pick at, an so day picks at de clay." Euch is the learned diagnosis of our hotel porter, who adds that "day mighty seldom marries 'ceptin 'mong 'emselves, always cousins an sich.' 'A regulah elay catab, a durn low down clay eatah," is the country negro's term of extreme contempt.

It is a pleasure to turn from such people to Birmingham and its very lively people. In 1881 I visited the city, but I cannot recognize a spot I then saw. The frame hotel I patronized is gone, and the site covered by a block of stain and brick. The city then had 3,100 inhabitants; the census of 1890 credited it with 27,000 and the county with 88,-000, but soon after all the residence suburbs were annexed and now that school census indicates a city population

there are 15 suburban towns outside the

tentions opera house they wear exactly | This includes many negroes, doing the the same stolid air of indifference as at | lowest grade work at 80 cents a day, home. They are as totally destitute of | and many others at \$1. So the estimated daily average of miners proper is \$2.40 per day, and a few of the most skilled make \$3. The highest wages in the district are paid to the head roller in a rolling mill-namely, \$15 per day -out of which he has to pay two helpers. Similarly the boss puddlers get high wages and pay belpers, so the range in the furnaces is all the way from \$1.75 to \$4. Common labor is rarely above \$1 a day, and many hundreds of negroes are working at 80 cents. The negro quarters of the cirrare by edds the poorest I have ever seen, north or south. I really do not see how life can be maintained on the south half of Second avenue and adjacent streets, and my guess is that if the city authorities to not bester themselves before spring they will have a little pestilence to Asal with. A pathetic proof of the narrow lines on which these poor creatures live appeared in the fact that several with whem I talked told me, with a voice of cludness, that lately the price of flour had I an put down to 55 cents a suck

zā pemds) and meal to 25 cents. I need not give the enthusiastic talk at the figures on cost of material by which the beeners prove that from can he made here much cheaper than anywhere else in the world, and that Birmingham is destined to be the Sheffield, the Sligo, the Bradferd and the Manchester, all in one, of the new world. investors will investigate, and for othis such figures would be wearisome. Whether this cmy is really to have 125, (a)0 people in 1900 and 250,000 in 1910, as the most moderate assert, is more than I know, and one man's guess is as good as another's. J. B. PARKE. Birmingham.

TOM REED AT WASHINGTON. The Ex-Speaker Surprises His Friends by

His Altered Appearance. WASHINGTON. Nov. 25. - Ex-Speaker Reed arrived in the city yesterday, and took up his old quarters at the Shoreham. Mrs. Reed will not join him until later. Mr. Reed had shaved off his moustache, and his altered appearance was quite a surprise to the numerous friends who thronged the hotel last evening to pay their respects. Mr. Reed declined to be interviewed. "It would be manifestly improper for me to say anything about the critical situations that confront the state and treasury departments," said he with a slight touch of sarcasm in his tone, "until we hear from the president. Mr. Cleveland has been so eminently successful in the past two years that we members of tongress cannot do better than to await with becoming modest, awe and resigna-tion until he tells us what to do. Then it will be time for us to act, and, perhaps. speak a bit also."

☆ Debility.

That complete collapse of the entire system, when the organs improperly perform their functions, and as a natural result a cessation of nourishment to the body ensues, a continual loss of flesh is experienced, and death from starvation is the end. This trouble is in every instance averted by the use of that greatest concentrated food product

Bovinine C. D. HANFORD'S,

Retained by the weakest stomach, readily assimilated, new flesh and nerve tissue is created, the blood is enriched, the vital organs resume their natural functions and a return to health is the result. In this connection, Dr. M. W. Van Denburg of Fort Edward, N. Y., says, "I have used Bovinine in cases of extreme debility where no other food would be tolerated and with very satisfactory results." Physicians everywhere tell the same story.

MONDAY, NOV. 25, 1895.

The siste for the organization of publican leaders, gives the presidency to Sanator Ellaworth, the the rmanship of the Finance Commirree to Senator Mullin, and the ob . "manship of the Judiciary Committee to Senator Lexow. Second place on the Committee on Rules is also given to Mr. Lexow.

The Akors is indebted to its most esteemed contemporary, the Nevburga Telegram, for a quarter column notice (comewhat personal to be sure written in the best vein of its editor. We don't know but that we would like to print it, but then a proper sense of modesty forbids, and, moreover, their is the possibility that some of our readers might take the Tele gram man seriously, in which event what a fix we would be in.

The report of the Supervisors' Committee, recommending the employment of jail prisoners at stone breaking, repairing county buildings and in tilling Orange Farm, has been discussed with interest by many citizens. While admitting all that the committee says in regard to the evils and expense of the present system, not a few good citizens fear that the remedy proposed is as bad as the disease, and that a year's experience with the new system will show an increase in the cost of maintaining prisoners, rather then the decrease. which the committee impliedly eesimere

Legislature and finds that a large majority of the Republican Senators and Assemblymen are opposed to any modification of the exc se laws, so as to permit local option in cities of the first class in regard to Sunday selling. The country members are practically a unit in support of Warner Miller's "God and morality' plank. The H-rald's figures show that six Republican Senators flvo: iscal option, while twenty-five oppose it and four are non-committal; twenty-six Republican Assemblymen favor local option. fifty-three oppose it and twenty-four are non-commital or undecided. Mr. Goodsell, of the First Orange District, favors the Saratoga platform, but will vote with his party. Mr. Badell, of this district hasn't given the matter attention, but when it comes up "will endeavor to act for the interest of his constituents and shall doubtless be governed largely by his party caucus."

Ex-Congressman Henry Bacon, of this district, who was Chairman of the Committee on Banking and Currency in the Fifty-second Congress, was in Washington, last week, on private business, and was interviewed by the Sun's correspondent on the financial situation. He said that the only way in which the gold reserve can be maintained is to make all customs duties payable in gold, for so long as ninety-five per cent. of the customs dut es are paid in paper there is no way for the government to obtain gold except by purchasing it or borrowing it. Mr. Bacon said further that he would redeem all the Sherman notes and all the notes now receivable for customs and re-issue them as greenbacks, which are not receivable for customs. Then, and only then, will the gold reserve be replenished naturally, for even if the revenue were in excess of the expenditures of the Government, the gold reserve would still be continually depleted by the present system of receiving all kinds of paper money for customs duties. Ex-Secretary of the Treasury Foster, in a recent interview, takes the same position as Mr. Bacon in regard to making customs duties payable in gold, but does not go as far as to suggest the permanent retirement of the notes now receivable for duties.

A Card from the Publisher of St. Paul's Rirectory.

EDITORS ARGUS:-It was a mistake and in defense of myself do I correct

The position of the notice, concerning the sale of St. Paul's directory as it occurred in Saturday's Press. was not the fault of the publisher, neither was it done with any wrong intent on the part of the Press. Its appearance with the religious notices was a mistake and should be regarded as such.

The publisher agrees with the remarks of the pastor, in that, "The church should not be made a book store." No one had any such inten tion, and furthermore the hou e of God should not be used, under any consideration or in any respect, as a buying and sailing institution. The notice as it occurred in the daily papers, "concerning the sale of the books on the Sabbath," was a mistake. Henceforth the books can be procured at the stores of John J Chambers, 1. B. A. Taylor and J. N Kellogg.

OBITUARY.

El'zabeth Ann Harding. Mrs. Elizabeth Ann Harding died

at the home of her daughter, Mrs. Coe F. Young, near Kellam's, Wayne county, Pa., Nov. 7. She was the youngest daugnter of Charles and Sarah Jillett, of New Vernon, and was born June 21st, 1815. Her brothers were Isaac, of Batavia, and Charles, of New Vernon. She had three sisters: Olive, wife of Stephen Wiggins, of Otisville; Mary, wife of James Butt, of Warwick, and Lucinda, wife of Wm. Hulet, of New York city. They are all deceased.

She was married to David Corwin Swezzy, of Mount Hope in 1831. Her children were: Mary A., wife of Abrer S. Harding, deceased; Mrs. Sarah L. Beach, of Ovid, N. Y.; Carrie A., deceased; Charles J. Swezey, of Nappanee, Ind.; Jennie F., wife of Horace S. Dusenberry, of this city; Addie A., wife of Coe F. Young.

In 1845 she moved to Indiana where her busband died, after which she returned to Orisville. In 1852 she married Joseph Harding, of Ousville, who four years afterwards was killed by the cars while crossing the railroad at Otisville.

Mrs. Harding was a member of the M. E. Church and a kind hearted christian woman, loved and respected by all who knew her. She was buried at New Vernor.

Mary Moore Brewster.

Mrs. Mary Brewster, widow of the late Nathan H. Brewster, of Wawayanda, died, yesterday, at the home of her step-son, Mr. H. C. Brewster. No. 9 William street, in her eightyfifth year. The cause of death was an ascident, which she sustained on Tuesday last, when she fell down stairs, breaking her hip. As a result of this accident, a kidney disease from which she suffered, was greatly aggravated.

Mrs. Brewster was the daughter of the late J. S. and Heosibah Canfield Moore, of Wawayands, and resided at Slate Hill until about two years ago, when she removed to this city. She was a member of the Ridgebury Presbyterian Church, and the interment will be in the Ridgebury cemeterv.

She is survived by a sister, who lives in Indiana, by a piece, Mrs. Mary T. Ferris, of Newark, N. J., and a nephew, Gabriel Moore, of Wurts-

-The harvest home services at the Presbyterian Church, yesterday morning, were very beautiful and impressive, and were followed in the evening by a harvest praise service. The musical part of the programme was very elaborate, Messis. Buse: and Carl Berg assisting with their cornets. The platform was hard somely decorated for the occasion. The deccrations will be allowed to remain until after Thankegiving. Owing to the inclemency of the weather the attendance was not as large as was anticipated.

From a Special Correspondent.

-Miss Eleanor Soloman, of Goshen, has organized a dancing class for children. The first meeting was held on Friday afternoon, at Music Hall, from four to six o'clock.

-There will be no meeting of the Ladies' Whist Club, this week, Mrs. J. W. Gott will entertain the club on the afternoon of Wednesday, Dec. 4th, at her home, on South street.

-The weather has almost ceased to be an important topic of conversetion in Goshen, the first question now asked, when two persons meet, being: "Where do you get your water from?" and then follow various tales of woe, of barrels of water brought from a distance, of pailsful laboriously earried from neighboring springs or wells, and a long list of various shifts and contrivances, to which the want of the precious fluid has reduced the unfortunate sufferers. The natives of Australia have a legend to the effect that, when the earth was created, there was no water upon its surface, a state of affairs with which we can readily sympathze at present. But people were more fortunate in those prehistoric times than they are now, insomuch as there was on the earth at that time an immense frog filled with water. If this frog could be made to laugh, the water would flow from its | zors atcles. About \$200 worth of mouth, and the long felt want would | goods were stolen. into its presence, who danced first on one leg, then on two legs, then on three legs, but the frog was not endowed with an especially keep sense of the ludicious, and he retained his gravity and the water supply. Finally the eel came and wriggled and wriggled, until the freg could bear it no longer; be opened his mouth and the water pourded forth and covered the earth. If such a frog could be inveigled into the vicinity of Goshep. and could read in the papers the accounts of the eccentric performances of the various pumps that have been alternately working and playing, up at our reservoir, Goshen might possibly suffer no longer from a water famine.

THE MARRIAGE TIE.

Men and Women Not to Be Judged by

Whether it is that we are poorer, or hat we are more luxurious and exacting in our tastes, and that the girls of today require more in their marriage than the ordinary Englishman can afford, I cannot say, but unless girls have great beauty or large formules we hear much more of the difficulty of their marrying. Among the mass of women, however, there is no revulsion from the marriage tie, and all healthy minded girls and women seem to be just as much interested in the question as were their grandmothers. The one great fact that has kept English society is the inviolability of the marriage tie. Infidelity in a married woman is surely reason enough to justify her husband in getting rid of her, and the woman who clamors for divorce on the same grounds as men is surely lowering the standard of female purity in a rathless way. Is man, with his stronger, coarser, more animal nature, to be judged by the same standard of chastity as a woman, with her higher ideals of life, her purer nature, and the exemption from temptation which she

If we think for a moment of the temptation to which men are exposed from their very early youth, and which they undoubtedly combat very unsuccessfully, and which attacks them at a time when they are most prone to succumb-in the period of youth, vigor and ignorance-and contrast their position with that of women, we must surely feel that we are degrading our sex when we ask for a corresponding code of morality, or even suggest that women are to be tried by no higher standard

than that to which men strive to attain. We are told that no union can survive the conjugal customs and intimacy of English married life. Perhaps the new woman thinks so because in her ephemeral passion no feeling of constancy, affection or gratitude is possible. We be lieve that the overwhelming majority of old fashioned English women regard that intimacy as one of the purest and sweetest ever devised-one which, when the passion and desire of youth fade away, blossoms into a friendship, a compansionship as constant as it is holy. without which their lives would indeed be barren. —Lad7 Jeune in Saturday Re

A REMARKABLE VENDETTA.

All This Half Satage Father Lives For I to Kill Walrus.

"Did you ever hear of a strong, ablebodied man going clary from grief?" asked Captain Debney of the steamship City of Fuebla, on the water front yesterday. "I don't mean one of your highly sensitive creatures," continued be, but a man 6 feet 4 inches in his stockings, and as strong as an ox. Of such a man I heard during my last trip to the sound. He is a Russian Finn and is sensible on every subject save one. He has a vendetta against the walrus, and his cabin in the wilds of Alaska is built

up with their skulls. "According to the story told me by a passenger who came down with me from the sound, this man settled in Alaska years ago. He married a native woman, and she bore him a son. A few years later the mother died, and all the affection of the half savage father centered on the son. Nothing was too good for the lad, and everything in the way of hunting and fishing lore was taught him.

When the boy was old enough, his father took him out on all his hunting expeditions and soon the youngster began working on his own account.

"One fatal day he attacked an old bull walrus, but instead of killing it he himself was the victim. When the father saw the dead body of his son he was wild with grief, which finally settled into a species of madness. Now all he lives for is to kill walrus.

"When the mama first seized him he lived in a dugout. Now his hut is on the ground and composed almost entire ly of walrus skulls.

"The crawls up behind the brutes while they are as leep, and, seizing them by the tusks, stands them on end by man force. He looks into their eyes as though seeking to recognize the one that killed his son, and then his kinfe dees the rest. The hard is then cut off, and gies to ma'e one piere to the monune at he is noting to the memory of his sen-—: in Francisco Call.

bleedings from the lungs, severe lingering cough with copious expectoration (including tubercular matter), great loss of flesh and extreme emaciation and weakness.

Do you doubt that hundreds of such cases reported to us as cured by "Golden Medical Discovery" were genuine cases of that dread and fatal disease? You need not take our word for it. They have, in nearly every instance, been so pronounced by the best and most experienced home physicians, who have no interest whatever in miswho have no interest whatever in mis-representing them, and who were often strongly prejudiced and advised against a trial of "Golden Medical Discovery," but who have been forced to confess that but who name been forced to confess that it surpasses, in curative power over this fatal malady, all other medicines with which they are acquainted. Nasty codliver oil and its filthy "emulsions" and mixtures, had been tried in nearly all these cases and had either utterly failed to benefit, or had only seemed to benefit a little for a short time. Extract of malt, whiskey, and various preparations of the hypothose. and various preparations of the hypophos-phites had also been faithfully tried in vain. The photographs of a large number of those cured of consumption, bronchitis, lingering coughs, asthma, chronic nasal catarrh and kindred maladies, have been skillfully reproduced in a book of 1000 pages which will be mailed to you, on receipt of ad-

age and wrapping only. You can then write those cured and learn their experience.

WHERE THE RICHEST MILLIONAIRES DELIGHT TO PASS THE WINTER.

A Bundred Members Worth an Aggregate of \$500,000,000 - Dr. Parkhurst an Honorary Member-Off Georgia's Coast, but Only One Southern Member.

Dr. Charles H. Parkhurst of New York enjoys the truly unique distinction of being the only honorary member of the Jekyl Island club, and as such honbrary member be is privileged at will to njoy the intimate society of its members. This privilege is one that is most cagerly sought after in vain by many who are eminent in politics and affairs -so eagerly indeed that we are told \$5,000 has been offered over and over again for membership, but without suc-

Jekyl island sits like a gem in the sea, a few mules off the southeast coast of Georgia. It is one of the most magnificent gam) preserves in the world. The term "a sportsman's paradise" is applied to it with far greater propriety than to most game preserves. It was gobbled up some years ago by a lot of the richest men of the United States for a winter shooting and fishing and recreation resort, and there they may go whenever they wish and enjoy themselves in their own way, entirely secure from the plying eyes of the curious. This is really the chief reason for the

JENYL ISLAND CLUB HOUSE.

existence of the club, for nearly every member thereof is a millionaire, and in these days it is not easy for a very rick man to keep his comings and goings from the knowledge of the public. At the beginning shares in the club were sold at only \$660 each. Lists of names are not always interesting, but in this case the following partial list of members will no doubt be tolerated, for it includes these of some of the best known men in the United States. Read:

From New York-C. N. Bliss, J. Pierpont Morgan, John Chaffin, M. K. Jesup, Alexander Baring, W. Bayard Cutting, Ogden Goelet, Robert Goelet, George J. Gould, Engene Higgins, Joseph Pulitzer, William Rockefeller, W. K. Vanderbilt, F. W. Vanderbilt and Pierre Lorillard: from Cincinnati, W. P. Anderson and B. S. Cunningham; from Buffalo, George Bleistein; from Ohio, Calvin S. Brice; from Boston, Francis Bartlett; from Chicago, Marshall Field, N. K. Fairbank, H. W. King, W. S. McCrea, Murray Nelson and John De Koven; from Philadelphia, Rudolph Ellis; from St. Paul, J. J. Hill; from Branswick, Ga., John E. du Bignon.

This by no means exhausts the well known names, but to set them all down would be to take up more space than is at the writer's disposal here. Mr. da Bignon, whose name is given last, is the only Jokyl Island club man who lives south of Mason and Dixon's line and he is a member chiefly because he was the island's ong and owner. H. E. Howland is president. The membership is limited to 100, and the aggregate wealth of the members is understood to be \$500,000,-000. The island is 11 miles long and contains about 14,000 acres. 35,000 being salt marsh, 25,000 heavy oak and pine timber, 2,500 sea island cotton land, 2,500 "hummock" land, 2,000 dry savanna and 1,000 acres of hard black marsh.

It was Mr. du Bignon who originated the idea of converting Jokyl island into the grounds of an exclusive club, and his notion began to take form in 1885. He sold the island to the club, organized soon after that, for \$125,000. Three years later the money expended for the clubbonse and other improvements had brought up the total expenditures to \$350,000, and since then other large sums have been expended in roads and piers and other schengs of improvement, so that now perhaps a round half million has been invested by the club and its members, and perhaps much more, on Jekyl island.

The clubhouse is built of brick and marble, is four stories high, has a frontago of 125 feet and extends back 118 feet. There are 75 rooms, exclusive of those in the basement and including great parlors, reception rooms, dining rooms, etc., each one furnished with big ald fashioned fireplacer, the blaze in which lends ruddy glow and the heat from which makes the house comfortable whenever there is chill in the air. The entire front of the clubhouse is covered by a veranda, and a hands me tower rises from one coinci, forning an observatory, from which the interesting points of the island and the nearby mainland can be seen.

The amusements of the Jekyl Island club members are thoroughly diversified, and naturally many of them are costly. There are riding and driving, shooting and fishing, and yachting, both steam yachts and fast "single stickers" and schooners being owned by some of the members. A beautiful casino, which will contain a really "spacious" ballroom, is about to be built at a cost of \$50,000, and many "cotrages" so called, but, in fact, little less than winter palaces, have been put up, and more are in contemplation. Joseph Pulitzer's proposed residence will probably be the

Jekyl island has a history. It was settled in 1738 by Governor Oglethorpe, and upon it was elected the first brewery in America. One of the earliest brange groves on this continent was also planted there. It flourished for nearly a century and was killed by the severe winter

TO WED A SAILOR PRINCE. Princess Maud of Wales and Her Fiance,

Prince Charles of Denmark. Prince Christian Frederick Charles Georges Valdemar Axel, who is soon to wed Princess Maud of Wales, is a son of Prince

Frederick, heir apparent to the throne of Denmark, and is called Prince Charles for short. He was born at Charlottenland on Aug. 3, 1872. In the majority of royal houses in

PRINCE CHARLES. Europe the elder son is designed for the army and the younger son contents himself with a life on the ocean wave. In the case of the sons of Prince Frederick of Denmark this rule was followed. Prince Christian, the elder son, is a soldier, and Prince Charles is a sailor. He is a lieutenant in the navy of Denmark, and thus far has done nothing to demonstrate that he is brighter than any other young Dane of good birth of his age. Princess Mand of Wales is the youn-

gest daughter of the Prince and Princess of Wales, and has the reputation of being a very bright and popular young woman. She was born Nov. 26, 1869, and is about three years older than the prince of Denmark, who is to become her husband. During the past few years Princess Mand has been reported engaged to about every eligible prince and wifeless statesman in Europe. For a time it was declared again and again that she was to marry Lord Rosebery. Then the Prince of Naples, the heir apparent to the throne of Italy, was alleged to be the fortunate young man who was to lead her to the altar. This rumor proved to have no more foundation in fact than the Rosebery report, and an end has finally been put to such stories by the official announcement of her bethrothal to Prince Charles of Denmark. As Charles has a brother between him and the Danish throne, and as both he and his bride to be are poor, the future does not look particularly promising for Princess Mand.

China Borrowing in Germany.

LONDON, Nov. 25.-A dispatch to The Times from Berlin confirms the report that Caina is negotiating with a German-English syndicate for a new loan for the purpose of securing funds with which to pay a portion of the indemnity promised the Japanese at the conclusion of the recent war. He Remembered Napoleon L.

LONDON, Nov. 25 .- The Daily News announces the death of M. Barthelemy Saint Hilaire, who was a little more than 90 years of age at the time of his death, and was probably the only man living who retained a clear personal recollection of Napelcon I. The first occasion was on March 31, 1814, when the allied armies antered Paris. He had a better view of Napoleon in 1815, stareview on the Champ de Mars. The last glimpse that he caught of Napoleon - courred a few weeks later, as he walked on the terrace of the Tuilleries. M Saint Hilaire was a writer of considcrable note.

A cup of muddy coffee is not wholesome, neither is a bot le of muddy medicine. One way to know a reliable and skillfully prepared blood-purifier is by its freedom from sediment. Ayer's Sarsapatilla is always bright and sparkling, because it is an extract and not a decoction.

The market is full of cough mixtures, but one trouble with most of them is that when they do a little good the patient has to take so much that he gets to loath the taste. Tue Pineola Balsam is superior to other cough remedies because it is agreeable to the palate and its good effects are immediate. In a few days an ordinary cough is gone altogether Bronchitis and asthma are more stubborr, bu' they too are cured by Ely's Pineola Balsam. A remedy massengers.

THE ERIE'S NEW MAIL SERVICE. he New Schedule in Operation—Train

5 to Stop in This City. The new railway mail schedule was

put in operation, on the Erie, yesterday, and as a consequence, No. 5 will stop at James street for the present. Frank Gee, a former employee of the Middletown post office, had charge of the mail car, yesterday. The following officials were on board the car: R.C.Jackson.Superictendent of the Rallway Mail service, and his assistant, H. E. Mack, and Chief Clerk E. B. McKee. Frank Grover and W. H. Biggius, of this city, will be assigned to the run as clerks in charge.

A Saloon for Every seventeen Citizens Monticel'o Correspondence of Port Jervis Gazette.

Mayor Strong and Teddy Roosevelt are grumbling because New York city contains one saloon to every 230 people. Pshaw! Monticello has twelve places where you can get full. According to last c nsus, that's one for every eighty-five souls, or one for every seventeen voters. Yet nobody ever heard us grumble.

INSPECTOR GENERAL MILEWIE'S RE-PORT

Praise for the 24th, Also Some Criticism-Tne Newburgh Companies -Poughkeepsie Lieutenants Advised to Resign-The Third Brigade.

Inspector-General F. C. McLewee's annual report has been printed and copies of it were received by the commissioned officers of the 24th | than ever before known. Separate Company, to-day.

The report gives the company 100 per cent. in attendance, and continues as follows:

This is a good company, well discipined and has good officers, but is lacking in that susp and finish that makes a company first class, the drill

being quite ragged. It is a serious mistake that there is no rifle range in this armory.

Lockers neatly arranged, and all State property well cared for.

Books satisfactory. The Inspector-General has made a mistake in his report concerning the rifle range, for the 24th has one of the finest indoor ranges in the State.

Of the 5th Separate Company, of Newburgh, the Inspector-General

A good company, discipline generally good; men steady, except at roll call when too much talking prevailed; officers intelligent, non-commissioned officers fair.

Lockers kept in a most disorderly condition, which is inexcusable. All State property well cared for, but ecattered around armory.

A rifle range should be placed in this armory as soon as possible by the State.

Books generally correct; a few minor errors.

The Tenth Separate Company is reported as follows:

This company, which has been in a bad way for some time past, is now in a fair way to regain its old-time prestige and fame; with but one commissioned officer it is seriously

handicapped however.

Men were very steady and earnest in their work. Lockers very neat in arrangement; and all State property in good condition and well cared for. This is one of the few armories in the State without a rifle range, which the State should provide for as soon

as possible. Bocks models of correctness and

verv near. The two lieutenants of the 19th Separate Company, of Poughkeepsie, are advised to "resign forthwith, for the good of the service."

The 21st Separate Company, of Troy, still retains its position as the best separate company in the State. The Assistant Burgeon of the 33:d Separate Company, of Walton, is advised to resign at once, owing to neg-

lect of duty. The Third Brigade, of which the 24th is a part, numbers 2,827 men, of whom 2,702 were present at inspection. Of the thirty-teven companies believer in printer's ink and does comprising the brigade, but seven attained 100 per cent. in attendance

Signal Corps, the State is 13,151.

BANK STOCK AT AUCTION.

Good Prices Realized for Shares of the Quassale and Newburgh Banks.

An auction sale of bank stock was held at the Palatine Hotel, Newburgh, Saturday. Forty shares of the Quassale National Bank sold for 146. Twenty-five shares of the National Bank of Newburgh were sold in five, four and three share lots at 161, 160, 1571/4, 158 and 1561/4.

The Canadian Jubilee Singers at St.

The Canadian jubilee singers attracted a large au lience to St. Paul's Ohurch, Saturday evening. The entertainment consisted of sol s, chcrus singing and instrumental music, and was first class in every particular. The singing of the "boy basso," Mr. Lightfoot, and mandelin playing by the same gentleman were exceptionally fine. Mr. Warner tendered several difficult selections upon the elide trombone and was heartily encored. The jubilee singers assisted in the services at the church, last evening.

An Orange County Trotting Circuit Suggested.

The Warwick Advertiser suggests that Orange county's fame as a breeding place for trotters may be regained if the horsemen of Gushen, Middletown, Post Jervis and Warwick and possibly Cornwall and Newburgh will unite in a trotting circuit. It says that if purses amounting to \$15 000 or \$20,000 were offered good horses would be entered and a large attendance of horsemen as-

Broome County Bank Assessment Will Not Yield Much Money,

The receiver of the broken Bro me County National Bank, of Bir ghamtor, has collected \$16,450 of the assessment of \$100,000 levied on the stockbolders of the bank. It is not believed that more than \$25,000 will be realized from the assessment, most of the stock being held by stimulate and contains no whiskey parties who have nothing with which to pay.

toughs, struck and otherwise illtreated H. W. Cochran, the keeper of a grocery store, who is entirely blind, and has been for the past fifteen years. Sullivan county justice will in its clutches.

-Apples have been so plenty all the past fall that it has been difficult to sell them at any price. Some fine apples are now grown in the western and river towns of Sullivan county

-Depend upon it, the farmers of Orange county will have to pay big prices for cows from Delaware county next fall if they get any. In some localities in that county where the grasshopper pest was most severe at least half the stock has been sold and driven away. A shortage of cows in that county will have a telling effect on the quantity of milk shipped for the year to come.

-The wood acid manufacturers are feeling better just now than for two years back. There is batter demand for their products, and aside from that they expect the next Congress to grant them some concessions. Congress cannot help the wood acid business out without putting the grain growing farmers in a hole. Any legislation that may be made ought to do the greatest good to the greatest number. The acid men's lot has been cast in hard places for some time past.

should be taken out of the Delaware Riverin New York State so far as that river is the boundary line between that State an i Pennsylvania. and yet allowed in the inland water . Our game and fish laws are fast bacoming odious and but few peopl respect them as they should. If it is detrimental to the fish interests of the State to allow eel racks in the river between Deposit and Mongaup, then it ought to be equally so in all the other State waters.

-Norwich has a woman butcher who is getting on finely. She attends to all the details of the busi ness, employing men only to do the butchering and cutting up the meat. Everything about the shop is kept as neat and clean as water and soap will make it. Burriedly and Unwittingly Changed the Hours of Service.

St. Laui's M. E. Ohurch, published 1461/2 and another lot of eighty-five in the city papers, Saturday, changed shares of the same stock brought the hour of Sunday school from 9 30 a. m. to 2.30 p. m., and that of the morning service from 11 to 10.30. Yesterday, Rev. Dr. Wilson explained that he had no intention of changing the established order of affairs in the church, and that the notice was written, as it was published, in a moment of prescaupation. He had forgotten the notice until late in the day, and then wrote it hurriedly, and the hours as given were those for Sunday school and morning service to which he had been accustomed for nineteen years.
